2. DAY OF THE ENVIRONMENT.

The 5th of May is the day of the environment. We arranged to prepare a collaborative video with a song. Each country has to prepare a part of the song with their students. Here we discuss some questions:

- How to record the song with students voices? It is not necessary. They only need to act, not to sing.
- How to prepare the introduction with teachers? It will be four squares. In each square will be one school. We have to receive and pass the world and greet the others schools. The coordinator, Tania, show the draft of the video with the Spanish part to have a better understanding.

The final video will be sent the first week of June to be watched with students the 5th of June.
