## **2. WEB PAGE AND TWinspace.**

The project coordinator show and explain how to publish in the Erasmus web page:

<https://erasmusharrypotter.wixsite.com/sickearth>

It is very important that each country published photos in the web page and in the Twinspace. In the web page there are a special space for each school, and it is possible to publish in our language.

## **3. MOBILITIES.**

This week the coordinator had a meeting with the National Agency and one topic was the mobilities. We have flexibility to modify or postpone both activities and mobilities of the project due to the COVID situation. It is possible to:

1. Have the mobilities on line.
2. Postpone the mobilities until we can travel. If it is necessary we can ask for one more year to develop the project. If finally it is not possible to travel the mobilities must be done on line.

Both options are valued having in mind the Italy situation (where all the schools travels are forbidden during the 20/21 year) and we finally decided to take the second option. The mobilities of Spain and Greece are postponed for the next year.

## **4. NOVEMBER ACTIVITIES.**

- Activity 1 (P8) First workshop for students: Recycling. Training students about recycling, by teachers from the school or external experts. Spain have prepared a workshop with external experts that will be done at school during all November.
- Activity 2 (P9) Placing recycle bins: Each school will take care of getting paper, bricks and organic recycling containers. They will be placed in the corridors, classrooms and schoolyards. This will favor the separation of recyclable materials in the school.
- Activity 3 (P10) "Informational posters": Students will create informative posters about the correct use of the recycling bins and will be placed in corridors, classrooms, schoolyards. All materials must have the logo of the project and the cofinanced logo of Erasmus +, and the explanatory phrase of Erasmus disclaimer. It is possible to add also the school logo.
- Activity 4 (P11) First Video conference through eTwinning: Virtual meeting of students from the 4 schools. It will serve to meet and talk about the activities or doubts that arise, also they can present the school and the city, or sing a song. We decided to prepare for 19<sup>th</sup> November at 10:00 Spanish hour. It will last 30 minutes more or less. Greece will participate with 4 classes, Spain with 2 classes, Romania with 1 class and Italy will try to connect the students of one class from their homes.
- Activity 5 (P12) Upload the results of the activities of the month to twinspace, facebook, project website, Twitter, websites of schools, etc.

## **5. CHANGE PROPOSED FOR DECEMBER ACTIVITY.**

The main activity for December was the Spanish mobility so we value two possibilities:

1. Advance December 2021 activity: the collaborative calendar.
2. Advance January activity: the recycled handcrafts.

At the end we decided the second option. One of the ideas proposed was prepare a recycle Christmas tree.

## **6. EXTRA ACTIVITY.**

The project coordinator proposed an extra activity: Exchange of Christmas cards. We love the idea and everyone wants to participate. Spain will work with 10 classes, Greece with 4 classes, Romania with 2 classes and Italy with 1 class. Each country must send a card for each other classes:

- Spain make and send 7 Christmas cards.
- Greece make and send 13 Christmas cards.
- Romania make and send 15 Christmas cards.
- Italy make and send 16 Christmas cards.

The final date to send the Christmas will be the first of December, to be sure all the countries received it.
