2.1. Why? Because these actions made it possible for our project to be known by people outside the school environment, in our town and region.

3. Do you want to add something else about your dissemination that is not mention yet? We have made tried our best to make our project known to all the institutions, associations, organizations and people around us. I think that dissemination together with communication has been one of the strong points of the project. We participated in the regional Erasmus dissemination sessions called 'Erasmus Days' and in the end-of-year exhibition of all Erasmus+ projects in the region.
